

Polyglactin-910 Absorbable Surgical Suture USP

Polyglactin-910 Absorbable Surgical
Suture USP

Packaging & Availability

- Available in USP sizes: 6-0 to 2
- Needle options: Round-bodied, Cutting, Reverse Cutting, Taper-cut
- Packaged in sterile, Moisture proof Aluminium pouches ensuring long shelf life
- Customized pack sizes available upon request
Conforms to USP requirements
- Manufactured under COSCO Licensed and ISO 13485:2016 Certified facility
- Sterilized & packed in controlled clean-room environments

Why to Choose?

- Trusted synthetic absorbable suture
- Excellent surgeon handling feedback
- Reliable absorption with minimal tissue reactivity
- Designed for consistent performance in demanding surgical settings

Polyglactin 910 Fast Absorbable Suture USP

Advantages

- ✓ Faster wound healing support
- ✓ Reduced suture removal requirement
- ✓ Smooth, reliable performance
- ✓ Consistent across all surgical specialties
- ✓ Excellent surgeon handling feedback

Pack Options

- Single-packed sterile packs
- Needle-suture combinations

Storage

Store in a dry, cool environment away from direct light. Do not use if pack is opened or damaged.

Polyglactin-910 Antibacterial Suture
(with Triclosan) USP

Advantages for Surgeons

- Reduces risk of postoperative SSIs
- Smooth, predictable knotting performance
- Excellent pliability and user comfort
- Reliable absorption and tissue support
- Enhanced patient outcomes

Storage & Shelf Life

- Store in a cool, dry environment
- Shelf life: 5 years

Brand Assurance

Engineered to meet USP & ISO standards, designed for surgeons seeking safety, consistency, and antibacterial protection for their patients.

Polyglactin-910 Antibacterial Suture
(with Triclosan) USP

Needle Range

Available with a comprehensive selection of premium stainless-steel needles:

- Round body
- Reverse cutting
- Conventional cutting
- Taper point
- Spatula & specialty needles Sizes available from **USP 5-0 to 2.**

Available Configurations

- Needled sutures
- Non-needed strands
- Loop sutures
- Multiple lengths & combinations

Brand Promise

combines innovation, strength, and clinical precision-delivering trusted wound closure for modern surgical needs.

Packaging

- Sterile, Moisture proof Aluminium pouches
- Single-use, EO sterilized Clear labeling for easy identification
- Custom pack sizes available

Benefits to Surgeons

- Reliable knot holding
- Enhanced control and handling
- Convenient visibility during surgery
- Predictable absorption reduces need for suture removal
- Reduced risk of foreign body reaction

Monofilament Polydioxanone
Synthetic Absorbable Suture USP

Performance Profile

Feature	Details
Tensile Strength Retention	70% at 2 weeks, 50% at 4 weeks, 25% at 6 weeks
Wound Support Duration	Up to 6 weeks
Complete absorption	180-210 days
Absorption Mechanism	Hydrolysis
Tissue Reaction	Minimal

Packaging and Sterilization

- Sterilized by ethylene oxide (ETO).
- Presented in a sterile, moisture-proof foil pouch.
- Available in a wide range of USP sizes and with various needle types, including round-bodied, cutting edge, and taper point.

Contraindications

PDO sutures, being absorbable, should not be used where prolonged (beyond six weeks) approximation of tissues under stress is required. They are also not indicated for use with prosthetic devices, adult cardiovascular tissue, or neural tissue.

Indications For Use

PDO sutures are indicated for use in general soft tissue approximation and ligation, particularly where an extended absorption time is beneficial.

- General, subcutaneous, and fascial closure
- Pediatric cardiovascular surgery (where growth is expected)
- Orthopedic surgery
- Gastrointestinal surgery
- Ophthalmic surgery
- Geriatric or immune compromised patients

Catgut Plain Absorbable Surgical Suture USP

Packaging

- Individually packed in **aluminium foil-laminated pouches** with moisture-control fluid
- Box of **12 sutures**
- Sterile and ready to use

Advantages of

- Smooth tissue passage
- Reliable knot security
- Natural absorption mechanism Ideal for short-term tissue support
- Consistent and predictable performance

Brand Assurance

Engineered according to international quality standards, provides surgeons with a dependable, cost-effective absorbable suture option for routine surgical procedures.
